

The only full-featured web application for
ONE, SIMPLE, LOW PRICE!

TOWED

Make the Switch!

TOWED is an **affordable** and **powerfully flexible** application that enables tow companies to better track, manage, automate and improve operations. With decades of towing industry experience and software expertise built into the product, TOWED helps companies run more efficiently, resulting in reduced costs and improved customer satisfaction!

Ok, you've probably heard this before so why make the switch? It's simple—TOWED is the most affordable, full-featured, configurable web-based towing software available today.

TOWED is uniquely adaptable. It easily adjusts to fit any size operation or established process and can be quickly updated to meet changing business rules!

And because TOWED runs in the **cloud** and is accessible from any **mobile** device, all you need is the internet to gain real-time access to your data. No more installs, upgrades and managing client computers! It's our job to make sure your business-critical systems are always available and performing well. Our reliable applications, secure data and robust servers are located and backed up in state-of-the-art data centers. This means you can stay focused on what matters most—towing more cars!

All-Inclusive

TOWED includes everything for one **low monthly price!** That's right! When you sign up, you receive full access to all of our modules plus free support and upgrades. Flip this page for detailed information.

Dispatch, Lot & Release Management

Quickly and easily dispatch, release and close all call types! Features include automated pricing, notification to drivers and/or customers, one-click duplication for multiple call entry, multiple payment options and a quick-analysis dashboard.

Accounts Receivables & Invoicing

Track aging and outstanding A/R balances with simple and accurate reporting. Features include the ability to print or email invoices and one-click payments.

Letters, Foreclosure, Sales & Auctions

Send owner letters and complete the foreclosure and sales process with ease. Features include individual and batch letter processing, state forms*, auction setup and sales processing.

Damage Claims

Move claims quickly from first notice to settlement. Features include the ability to track damages by driver and truck, uploading of photographs, status diary and settlement printout.

Fleet Management

Record truck information, gas logs and routine maintenance or repairs. Features include vendor management, parts inventory and detailed work orders.

Mobile Access & GPS Integration

Access the full application from any mobile browser. Drivers may also install the Droid app for quick and easy call assignment, updates and credit card payments. Optionally integrate with one of our GPS** providers for two-way updates between your mobile drivers and the office.

WhoTowedMe.com Integration

Automatically publish impounded vehicle information to our customer search portal. Individuals can quickly find their towed vehicles resulting in less calls to the office, enhanced customer experience and faster payment!

Free Support & Upgrades

Search our knowledgebase for quick help or submit a ticket to our service desk for phone and email support. Enjoy free and seamless enhancements and upgrades as we continuously deliver powerful functionality focused on performance, flexibility and user friendliness.
